Usuarios y Grupos (ejemplo)

Usuarios:

user_efrain@empresa.com

user_ana@empresa.com

user_carlos@empresa.com

Grupos:

data_engineers

data_analysts

1. Crear grupos

CREATE GROUP IF NOT EXISTS data_engineers;

CREATE GROUP IF NOT EXISTS data_analysts;

2. Asignar usuarios a grupos

ALTER GROUP data_engineers ADD USER `user_efrain@empresa.com`;

ALTER GROUP data_engineers ADD USER `user_carlos@empresa.com`;

ALTER GROUP data_analysts ADD USER `user_ana@empresa.com`;

3. Permisos por capa

Bronze

GRANT SELECT ON TABLE catalog_au.bronze.Automobile_data TO `data_engineers`;

silver

GRANT SELECT, MODIFY ON TABLE catalog_au.silver.Automobile_data_transformed TO `data_engineers`;

GRANT SELECT ON TABLE catalog_au.silver.Automobile_data_transformed TO `data_analysts`;

golden

GRANT SELECT ON TABLE catalog_au.golden.Automobile_data_partitioned TO `data_engineers`;

GRANT SELECT ON TABLE catalog_au.golden.Automobile_data_partitioned TO
`data_analysts`;

4. Permisos directos a usuarios específicos

GRANT SELECT ON TABLE catalog_au.golden.Automobile_data_partitioned TO `user_

Permisos a nivel schema

GRANT USAGE ON SCHEMA catalog_au.bronze TO data_engineers;

GRANT USAGE ON SCHEMA catalog_au.silver TO data_engineers, data_analysts;

GRANT USAGE ON SCHEMA catalog_au.golden TO data_engineers, data_analysts;
